# Regain your independence and conquer the struggles of staircase

Orkanda offers chairlift solutions that provide freedom of movement throughout your home, allowing you to age in place free from everyday obstacles. Our compact and customized chairlift can be installed anywhere. We have dozens of satisfied customers with a good deal to choose our chairlift.

## Limitless design options. Revolutionary single tube rail.

Orka Freecurve curved chairlift features a revolutionary design that takes up less space on stairs with custom features providing limitless options. Spiral, narrow, and steep staircases present no challenge to the Freecurve thanks to its single tube rail, engineered to fit any home with a curved staircase.

Easy to maintain with a quiet and smooth ride that provides the ultimate in safety and comfort. The Freecurve is available in a unique, elegant design in a variety of seat and

## Compact

Orka Freecurve folds up easily maximizing the space for family members to go up and down the stairs as needed when not in use.

## Easy to Use

Ergonomic and intuitive to use, the joystick on the armrest smoothly operates the Freecurve.

## Adaptable

Combine your chairlift with a powered hinge or drop nose option to prevent the track from obstructing a doorway at the base of the stairs.

## Multiple Charge Points

Charge points are conveniently located at the top and bottom of stairs for pain-free recharging.

Additional charge points can be added for flexibility and convenience.

## Turn & Go

Narrow staircases are not a problem for the freecurve, the optional Turn & Go feature automatically swivels your seat forward while riding. A convenient solution that allows more room for the user in tight environments.

## Active Seat

The optional active seat option makes sitting down or getting up from your Freecurve much easier. With Just a pull of a lever your movements are supported keeping strain off your joints and muscles. ( Available with Alliance and Elegance seates).

## Safety First

The optional powered footrest allows you to fold and unfold the footrest without having to bend down, LED illumination improves visibility in low lit areas (standard with the powered footrest) and an anti-slip texture providing better foot grip when seated and departing.

## Automatic Swivel

The optional powered swivel makes it easy to get off the lift at the top of landings, simply hold the toggle switch in the direction of the landing to turn the seat for a controlled departure. With 80 degrees of tilt, you face more of your top landing providing greater security when getting up from your Orka Freecurve. (Manual swivel standard).

# Seat Types

## Classic Seat

The Classic seat is extremely comfortable and designed with input from therapists. The seat comes in a leatherette-grain finish offering a timeless ergonomic design.
